Scaffolding Case Study

A platform for success

**MORE THAN 100,000 MAN HOURS
ACCIDENT FREE DURING 2018**

At Godiva we believe that anybody should be able to work-on, visit or pass-by any of our contracts without being put at risk.

Godiva Access & Scaffolding knows that Scaffolding Safety Training is a key factor in ensuring a competent professional workforce equipped to meet the challenges of an ever changing industry. Godiva operates a very active training program throughout the workforce, and we are renowned for our attitude towards safety and our professional approach to all works.

All scaffolders are trained and registered CISRS card holders, with back office staff holding a minimum CSCS site operative card. Where required staff also have PASMA and IPAF training qualifications and specialist tool training. Godiva is an audited client of Simian Risk and hold a retained service agreement. We also hold a PAS91 UKAS accreditation, as well as the Construction Line Gold standard, RISQS Rail approvals, as well as many others.

Our personal commitment and leadership means we can deliver to time and budget and to the right quality without anyone's health and wellbeing being negatively impacted. During 2018 we have had more than 85,000 man hours accident free.

www.godivagroup.com

Godiva creates a culture where we all look out for each other, where we are intolerant of any incident or slip in standards and where stopping the job if we are not sure is an accepted norm.

We also monitor industry best practice initiatives and Godiva works with CIRAS, Confidential Incident Reporting & Analysis Service to help us manage risks.

Construction industry statistics provided by HSE from RIDOR and NASC annual safety report

	2015/2016			2016/2017			2017/2018		
	Fatal	Major	Over 3 Day	Fatal	Major	Over 3 Day	Fatal	Major	Over 3 Day
Construction General	43	*	*	30	*	*	*	*	*
NASC	0	33	63	0	27	69	0	17	72
Godiva	0	0	0	0	0	0	0	0	0
