

SUPPORTED HOUSING AND CARE HOMES

DESIGN AND ERECTION OF ACCESS SCAFFOLDING

Scaffolding Case Study

A platform for success

PROJECT OVERVIEW

Godiva was appointed to provide access and scaffolding services by McGoff Construction for a series of contracts for HB Villages who are a specialist developer of supported housing for vulnerable adults. The scope of access and scaffolding work included; external and internal new build masonry and roofing access, new build care homes.

The works used traditional tube and fitting construction with propriety system scaffolding staircase access and loading bays. Godiva has been working on an average of three sites in progress at a time. Godiva's scaffolding team average nine during the construction works.

HB Villages has developed more than 650 apartments across the UK, with another 400 in construction or planning. Godiva has completed work at sites in Northampton, Gloucester, Stourbridge, Coleshill, Nuneaton and Leamington.
